2.	Company History:					
	Pilecco Nobre Alimentos has been in the food market since 1976. We seek to employ the most modern technology in the rice industry. The industrial park is one of the most advanced in the world industry, bringing together the best of the technologies available in the international market					
	It is a company integrated with the communities. We provide production and quality in harmony with nature, generating self-sustainable development. This process is developed in the awareness of employees, associated with suppliers, customers and consumers, integrating them in business, economic and cultural activities with socio-environmental responsibility.					
	The Pilecco Nobre Alimentos invests in scientific research, using clean technologies in production and industrialization, reusing the by-product, without generating waste in its business activities, practices that make it possible to obtain Carbon Credits through the CDM-Clean Development Mechanism project homologated by the UN.
